

## *Creative Concepts 2 – Street art miniature*

*Synopsis: Based on the conceptual artwork of artist Slinkachu, you are to create a miniature scene in our urban environment, and then photograph it.*

*Procedure: You will create a Papertoy to create your characters. This can be people, objects, animals et cetera.*

*Dimensions – no larger than 6”, preferably 4” in height. No limit on the number of figures.*

*You will need to take 2 photographs from 2 different perspectives. One from a distance that allows us to see the environment without being able to discern your scene. The other photograph will be a close up of your scene.*

*Use Photoshop to edit your photographs, you can manipulate your photographs in any manner that you wish. Create the layout and design in Photoshop, or any program of your choice. The output is a colour print, you can send this to the printers, or use your own colour printer if you have one.*

*Print size: 14”x8”*

*Resolution: 150 dpi minimum*

*Output: colour printer*

*Mount print on 18”x12” black mounting board*
